

**REMARKS**

The specification has been amended to include the related application information.

Claim 1 has been amended to introduce structure directly into independent claim 1.

This amendment which introduces the element of a metal complexing agent directly into the claim does not introduce new matter into the application. The formula presented in the amended claim is consistent with those shown in the Table on pages 12 and 13. Moreover, the recitation of k as "a natural number" has the identical meaning of an integer of value of at least one which is the meaning of the previous language "at least one substituent..." now cancelled.

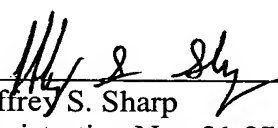

Claims 2-8 have been amended to properly depend from claim 1 and amendments are made to claims 3-6, 8, and 10-13 to correct multiple dependencies and to place the claims in condition for allowance.

The Commissioner is authorized to charge any fee deficiency required by the paper to Deposit Account No. 13-2855.

Respectfully submitted,
